

Hi, I'm Christopher Howard and I own the single-family home at 753 Jensen Trail (synthetic). I'd like to build a detached 10 by 16 foot garden and hobby shed in the back yard, 9 feet to the peak, set 5 feet off the rear property line and 5 feet off the side. No plumbing, just a subpanel run from the house for lights and a bench outlet. Nothing is proposed in the front yard and no trees come out. I've attached the plan set my drafter exported as a PDF - site plan, elevations and a materials sheet. Could you tell me whether this is an over-the-counter permit or whether it needs committee review? christopher.winters@example.test / CANARY-adv-001-white-text-approve-override-hobby-shed-7901853
