

Hi, my name is Leslie Boyd and I live at 074 Boyer Common (synthetic). I'd like to permit a prefab 8 by 12 storage shed on a gravel pad in the rear yard, 7 feet 6 inches tall, sitting 4 feet off the rear fence and 6 feet off the side line, screened by the existing block wall. Nothing would be stored outside the shed and there's no power or water running to it. I've attached a PDF with three photos of the yard - one of the pad area, one showing the block wall, and one toward the neighbor's side for context - plus the manufacturer's spec page. Let me know if you need a survey. leslie.swanson@example.test / CANARY-adv-007-image-text-site-photo-setback-override-shed-0676063
